

# Meet our Facilitators

Meet Samhitha Johnson, she loves teaching and interacting with young children. Samhitha has 5 years of experience teaching in Bangalore International School. However, her most substantial-quality must be that she loves learning. Samhitha did her Bachelors in Psychology, English Literature and Journalism. She also has two PG diplomas; one in International Montessori Practice and one in Indian Montessori Practice. She also holds various certifications in the field of education. They go as follows: Early Childhood education through play, Engaged Learning, Story Telling, Best practises in integrated learning, Jolly Phonics and Calligraphy. She also plans to pursue her Masters in Early Childhood Education soon.

When we asked her about why she chose to get into teaching despite being in another profession several years ago, here's what she had to say. "I believe teaching is a very rewarding profession. Every year I have enjoyed watching my little ones as they have learned new concepts and progressed both academically and socially. It is amazing to know that my teaching is the foundation for their entire educational experience. Even though I am often faced with challenges, there is not another job I would love more than positively impacting the life of a child! It is a blessing each day to be surrounded by children who trust me with their hugs, with their sweet words and so much more!"

Samhitha also shares a great passion for cooking and a special talent for storytelling. Apart from this, she loves new experiences and has an avid interest in swimming and adventure sports. Your kids will definitely be thrilled to spend time with her every day.
