

FROM THE DESK OF THE DIRECTOR

Our new principal, Shalini Singh Hamilton will join us soon. She was expected to have joined us already. However, her joining has been postponed due to a family emergency. We are excited to welcome her from the beginning of the next academic year. Shalini is an experienced school leader and comes to us from her previous position as the principal of The Gaudium School in Hyderabad.

I will continue as the school's director and focus on vision and strategy, while Shalini will be responsible for the operational leadership of the school. We will work closely together to ensure the quality of our academic deliveries and the implementation of our vision and pedagogical approaches.

In July, we will have information meetings with the parents, where they can meet Shalini and learn more about the school's plans.

We have almost completed our first typical academic year. Throughout the year, we have implemented academic systems and operations, and we have introduced events and activities that will be part of next year's plan. Two significant events are still pending for this academic year: The PBL EXPO on April 15 and the PFM on April 22. Also, the IB organisation will conduct the first audit visit as part of the authorization process.

Our learners have made significant progress during this academic year. At the beginning of the year, our learners were behind in academics, social and emotional development, which is typical for most schools worldwide. While some learners still need to catch up, we will ensure that all learners receive the support they need to meet their stage expectations. We believe in our pedagogical approach that respects each child's learning journey and sets goals step-by-step while keeping the end goal in mind. We do not pressure our learners beyond their abilities because we believe it can harm their future learning.

As the summer vacation is approaching, it can be a long time away from school and friends for many learners. I hope the parents find time to spend with their children throughout the year. If your child needs structured activities during the summer vacation, we introduce the CBS Summer Camp from May 3 to 16. The camp offers sports activities (Badminton, Skating, Table Tennis, Swimming, Football, Basketball), Music (Guitar, Drums, Keyboard, Vocals), Visual Arts, Dance, Theatre, and IT (iPad adaptation, Robotics/AI). The Summer Camp will provide a safe, fun, and skill-based experience, and the children can sign up for one or more of these activities. We will send a brochure with more information shortly.

The Summer Camp will also give a glimpse of what to expect when we introduce after-school clubs in the coming academic year.

I wish all our learners, parents, and staff a happy summer.

Warm Regards,
Allan Kjaer Andersen
Director
Chaman Bhartiya School

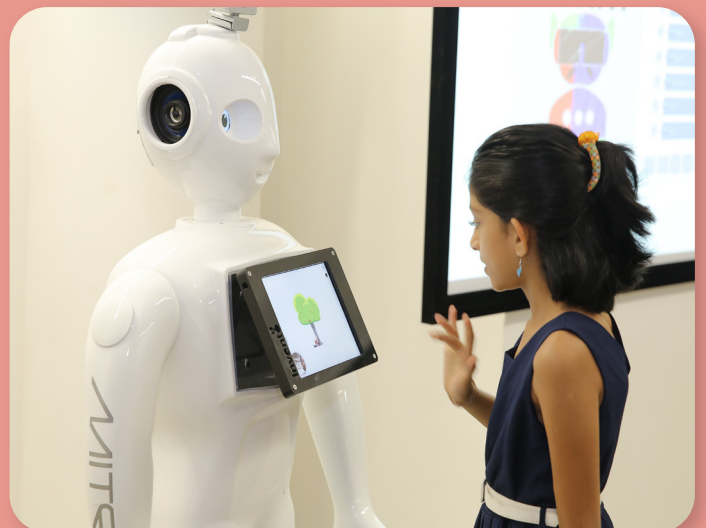

AI LAB LAUNCH

We inaugurated our state-of-the-art AI lab, which is equipped with cutting-edge technology and softwares. The AI lab is a unique addition to our school's infrastructure. It allows students to explore the vast possibilities of artificial intelligence.

The lab is equipped with a humanoid robot, which is capable of interacting with learners through voice and gestures, as well as assisting teachers in explaining concepts. The robot can conduct interactive quiz sessions with learners and provide in-depth information on any topic asked by students.

The inauguration ceremony featured a live demonstration of the humanoid robot's capabilities and the features of the AI lab. The robot interacted with the students and answered questions, leaving the audience in awe of its abilities.

REVIVAL CAMP, ON-CAMPUS LEADERSHIP PROGRAMME - GRADE 3 & 4

We recently organised an on-campus Leadership Programme for our Grades 3 and 4 learners. The programme was organised in collaboration with Travandre. The aim of the programme was to provide students with hands-on experience in a real setting and to develop relevant skills.

The programme started with a welcome drink, post which the students were then divided into groups and introduced to their instructors and volunteers. The first activity of the programme was the basic techniques of knots and camping. The instructors demonstrated different types of knot techniques, tent pitching, shelter building and first aid skills. The students constructed temporary shelters and learned about basic camping techniques. They also participated in pottery, obstacle courses, and fun games. The programme concluded with a bonfire and music followed by dinner.

SOF OLYMPIAD

Our learners recently participated in the prestigious Olympiad organised by the Science Olympiad Foundation (SOF). The event provided an opportunity for young minds to showcase their skills in mathematics, science, computer technology, and English language.

The Olympiad was designed to challenge and promote learning among students, creating an environment for them to grow and improve their knowledge. This event also helped them analyse their strengths and weaknesses based on their performance in this nationwide and international level examinations.

The following students from our school have won medals in the SOF-Science Olympiad Foundation 2022-23:

Anam Sharieff of Grade 1 - International Gold Medal in English and Bronze Medal in Mathematics.

Mohammed Ayaan of Grade 3 - Medal of Distinction in Social Studies and Mathematics.

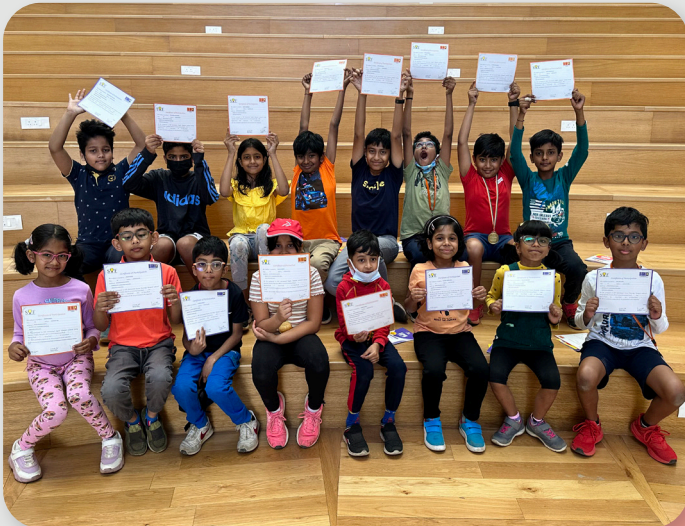

Aahana Mehta of Grade 3 - Medal of Distinction in Mathematics.

Yana Goel of Grade 3 - International Silver Medal in Social Studies, Bronze Medal in Cyber, and a Medal of Distinction in Mathematics.

Avyukt Kozhakkat of Grade 3 - Medal of Distinction in Mathematics.

Aditya Krishnan of Grade 3 - International Gold Medal in Mathematics.

Daivik Mallesh of Grade 5 - International Gold Medal in Mathematics.

WILDERNESS CAMP, OUTBOUND LEADERSHIP PROGRAMME - GRADE 5-8

We recently organised a 2-day Wilderness Camp for our learners as a part of our Leadership Outbound Programme. Learners from Grades 5 to 8 took part in this camp. The campsite was set amidst the scenic surroundings of Sakleshpur. The programme was organised in collaboration with Travandre.

On the first day, Our learners took part in a variety of activities including ziplining, archery, mud volleyball, and team building games. They also participated in river crossing and jumaring. Later in the evening, the learners were taught fire building and cooking skills, and they actively participated in building a campfire and cooking their dinner.

The second day of the event began with a trekking expedition. Which was later followed by other activities such as kayaking, outdoor games, and raft building. They also took part in a treasure hunt and uncovered clues and found hidden treasures.

The event concluded with the participants being awarded participation certificates, recognizing their successful completion of the programme.

MEET THE STAFF

Mercy Grace Solomon is the Public Relations Officer at our school. With nine years of experience in various fields, she has extensive experience in Marketing and PR, Admissions, Administration, and Teaching. She is a skilled communicator and mentor. She helps us execute effective PR strategies that not just enhance our school's brand but also communicate our values.

She is tech-savvy and a passionate learner, who enjoys devising innovative and creative communication strategies for our school. In her free time, she likes to read, travel, watch TV shows, and take photographs. She believes that reading and travelling can help broaden one's horizons.
