

# THE PRESS

Our Director and Principal Allan Andersen recently wrote an article for the Times of India on the topic 'The need for open learning spaces to foster creativity & innovation'. He spoke about the importance of inculcating qualities such as creativity and leadership among students and emphasised on shifting to modern, open, student-centric learning spaces. He has proposed ways to create an environment for students to express themselves and feel confident.

Bhartiya School

In a modern school, when developed with a view to stimulate learning, the building and the environment can function effectively as the third teacher. It is the child's relationship with the teacher, parent and environment that ignites learning. The need for open learning spaces evolved due to the changing trends in the field of education in the 21st century. Skills such as creativity, innovation & collaboration are the key skills required in the 21st century market. High emphasis has been placed on their development right from the pre-school stage itself.
